**Peterson Architecture & Associates**

Karsan Center 9495 East San Salvador Drive Scottsdale, AZ 85258

RE: Letter of Reference

To whom it may concern,

I have worked with Erik Peterson and several members of his firm for the past three years on the programming, planning, design and construction of various projects. The majority of my experience with Erik has been on the Seven Canyons Golf Clubhouse, Member Casitas, Hillside Villas, Range House and Parking Garage. Erik has an excellent background and experience with upscale private golf clubs, and a thorough understanding of the needs and expectations of the members and the developer.

One of the advantages of working with Peterson Architects is that Erik has been personally involved in every step, but he has a great staff supporting him. Whenever Erik has not been available, he is represented by someone from his staff that is qualified to make recommendations and decisions to keep the projects moving forward.

All of Erik's designs have been appropriate for the site, but also for the budget. If we tell him to reduce the cost and/or square footage, he always responds with creative ideas that maintain the intent and integrity of the original design.

I feel very comfortable recommending Peterson Architecture & Associates for any project they choose to pursue. Please call me at the number below if you have any questions.

Jeff Market Senior Project Manager
